PAGES

What leadership should know first

Executive summary

Locusta was scanned across 131 public pages. The automated review found 0 critical, 7 major, and 0 minor issues, with the highest-risk problems concentrated in Technical WCAG. This report is structured so district leadership can understand current exposure quickly while the webmaster gets exact page-level fixes to work from immediately.

What to do first

- Review the checklist section and confirm all PASS items still match current content.
- Work through any manual-review rows with your webmaster or accessibility specialist.
- Re-scan after fixes to confirm the highest-risk issues are resolved.

PROGRESS TOWARD SAFER BASELINE

Mapped to your compliance checklist

Website | Homepage and primary pages audited

Status: PASS

131 pages scanned with automated checks.

Forms | Forms are accessible

Status: PASS

0 forms detected.

Documents/PDFs | All PDFs reviewed for accessibility

Status: PASS

No PDFs detected during crawl.

Videos | Videos have captions/transcripts

Status: PASS

No videos detected during crawl.

Technical WCAG | Technical WCAG checks

Status: FAIL

7 technical issues found.

Items that still need human review

<input type="checkbox"/> Alt text quality	Found 0 image-alt findings to verify.	Automation can detect whether alt text exists, but not whether it accurately describes the image.
<input type="checkbox"/> Caption accuracy	Found 0 videos requiring caption review.	Automation can detect video embeds, but caption quality and accuracy require human review.
<input type="checkbox"/> Login-gated content	Public pages only. Protected content was not scanned.	Authenticated areas were not scanned in this public crawl and need separate manual testing.

Board-ready summary

Category	Issues Found	Status
Website	0	PASS
Forms	0	PASS
Documents/PDFs	0	PASS
Videos	0	PASS
Technical WCAG	7	FAIL

This audit was conducted on May 7, 2026 covering 131 public pages for Locusta. The automated scan identified 7 accessibility findings, prioritized by severity so the district can address the highest-risk items first and then validate remaining content through follow-up manual review.

Legal disclaimer

This automated scan identifies every accessibility issue that can be detected without a human reviewer — the full spectrum of automatable WCAG 2.1 AA violations. The remaining ~20% of potential issues involves human judgment calls that no automated tool can make; those items are flagged in the Human Review section of this report. This report does not constitute a legal audit, legal opinion, or certification of ADA compliance. ADAREporting.com makes no guarantee that passing this scan protects against legal claims under the ADA or any applicable law. Results are provided for informational purposes only.
