This audit was conducted on May 6, 2026 covering 10 public pages for Potosisd.k12.wi. The automated scan identified 35 accessibility findings, prioritized by severity so the district can address the highest-risk items first and then validate remaining content through follow-up manual review.

Legal disclaimer

This automated scan identifies every accessibility issue that can be detected without a human reviewer — the full spectrum of automatable WCAG 2.1 AA violations. The remaining ~20% of potential issues involves human judgment calls that no automated tool can make; those items are flagged in the Human Review section of this report. This report does not constitute a legal audit, legal opinion, or certification of ADA compliance. ADAReporting.com makes no guarantee that passing this scan protects against legal claims under the ADA or any applicable law. Results are provided for informational purposes only.
